TIPS & Tricks for die cutting the doily Thin Cuts

- ♥ Use the regular cutting mat that comes with the CTMH diecut machine. Do NOT use the magnetic mat.
- ♥ Place a piece of wax paper between the thin cut & cardstock prior to cutting for an easier release.
- ♥ Do not layer more than ONE piece of cardstock when cutting the doilies.
- ♥ Crank the doily through the machine 2 times before taking off plate.
- ♥ Washi tape is your BEST friend ☺ and is PERFECT to make sure your Thin Cuts stay in place.

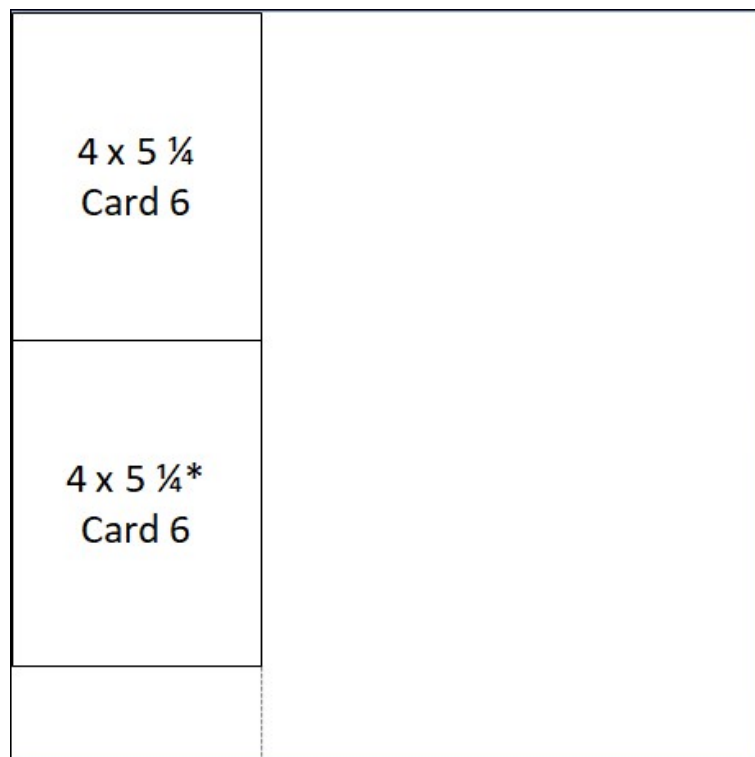

Adhesive TIP – The main adhesive used, was our dotted adhesive & All Purpose Mat, even to apply glue to the intricate Thin Cut pieces. ☺ I did use the green Tombow liquid glue to adhere the gold sequins.
