Getting Started:

- Gather all materials needed.
- Trim all zip strips and set aside. The zip strip is the ½" accent paper along the top of each sheet of patterned paper.
- Check the cut orientation below each cutting guide image. This will show you how to cut the paper, keeping the patterns on your project pieces facing the right direction.
- Light grey pieces on your cutting guide are project pieces. White pieces are leftover paper.
- As you cut the paper, label and sort the pieces as indicated in the cutting guide, creating a stack for each project.
- If there is a fold line present in a cutting diagram, cut the paper first before folding it. In order to die-cut two shapes at once, place the die on top of the folded paper or stack two paper pieces before running the paper through your die-cutting machine. Paper pieces that can be stacked for die-cutting will be labeled, "stack."

Key:

✂ = first cut | * = use back of paper | P = Project

— — — = cut line

Pull Tab Assembly Instructions:

<p>Choose from three slit sizes and place die on card front along with circle notch die. Die cut card front.</p> 	<p>Die cut A and B.</p> 	<p>Fold A along score lines on sides and attach flaps together.</p> 	<p>Fold B along score lines and wrap around A. Attach B to itself, do not attach B to A, so it slides up and down.</p> 
<p>Fold A along score lines.</p> 	<p>Insert end of A through slit on card front and fold flat.</p> 	<p>Attach B to back of card front (A should be able to slide up and down).</p> 	<p>Attach decorative accent to flaps on end of A.</p>
