Exclusive Stamp + Thin Cuts:

## Getting Started:

- Gather all materials needed.
- Trim all zip strips and set aside. The zip strip is the $1 / 2$ " accent paper along the top of each sheet of patterned paper.
- Check the cut orientation below each cutting guide image. This will show you how to cut the paper, keeping the patterns on your project pieces facing the right direction. Light grey pieces on your cutting guide are project pieces. White pieces are leftover paper.
- As you cut your paper, label and sort the pieces as indicated in the cutting guide, creating a stack for each project.
- If there is a fold line present in a cutting diagram, cut the paper first before folding it. In order to die-cut two shapes at once, place the die on top of the folded paper or stack two paper pieces before running the paper through your die-cutting machine. Paper pieces that can be stacked for die-cutting will be labeled, "stack."

## Prepare (4 each):

## Card Base:

Paper: card base
Ink: Glacier
Tip: Stamp counterclockwise. When you reach a point when your stamped pattern will overlap, use the masking technique.
Technique: Place a scratch piece of paper, or sticky note, as a mask to cover the area you don't want overlapped. Stamp the pattern on the card base and mask. Then, remove the mask.
