**Getting Started:**

- Gather all materials needed.
- Trim all zip strips and set aside. The zip strip is the 1/2" accent paper along the top of each sheet of patterned paper.
- Check the cut orientation below each cutting guide image. This will show you how to cut the paper, keeping the patterns on your project pieces facing the right direction.
- Light grey pieces on your cutting guide are project pieces. White pieces are leftover paper.
- As you cut the paper, label and sort the pieces as indicated in the cutting guide, creating a stack for each project.

**Key:**

✂ = first cut | \* = use back of paper

**Project 1: Left Page**

**Assemble:**

1. Use exclusive Peach patterned paper for base page
2. Attach 1A and 1B
3. Attach one leaf border sticker, as shown
4. Attach a stitched border sticker to 1D, as shown
5. Attach 1C, prepared 1D, 1E, and 1F to large white circle die-cut, as shown

*Tips: These paper strips are long enough so that the tops and bottoms will hang off the circle, and the excess will be trimmed in a later step. For now, only use adhesive along the parts of the strips that will attach along the top of the circle's edge, so that other pieces can be tucked behind them in a later step.*

6. Attach an egg border sticker to 1H, as shown
7. Attach 1G, prepared 1H, 1I, 1J, and 1K to large white circle die-cut, as shown

*Tips: These paper strips are long enough so that the right and left ends will hang off the circle, and the excess will be trimmed in a later step. Before attaching the paper strips to the die-cut, weave these strips into the attached vertical paper strips. Once they are all weaved through, adjust 1G–1K as needed and then attach them to the die-cut.*

*Technique: Interlace the horizontal paper strips into the vertical paper strips, over one and under one, repeating until done. Alternate the “over-under” pattern between paper strips.*

8. Attach any remaining unattached ends of paper strips to large circle die-cut and trim excess hanging off the edge
9. Attach 1L to prepared large circle die-cut  
*Tip: Do not use adhesive along the top or top left edge so other pieces can be tucked behind it in a later step.*
10. Attach photo
11. Attach prepared large circle die-cut to base page
12. Embellish with additional die-cuts, stickers, and dots  
*Tips: Attach a few embellishments with 3-D foam tape for added dimension. Tuck some embellishments slightly behind 1L.*

6. Dovetail and attach prepared 1R, 1S, and 1T, as shown
