Each card is numbered 1 – 10 plus bonus specialty cards. Use cutting guide to cut all papers and cardstock. On the cutting guide the number in the circle is for that particular card. As you cut each piece lay it in the corresponding pile to the card. This will make it easy when it comes to assembly.

You’ll see on each individual cutting guide how the paper is cut – it is created this way to work with the distinctive prints and tones of the paper to make the most of these beautiful prints.
