## Exclusive Stamp + Thin Cuts:

**Getting Started:**

• Gather all materials needed.
• Trim all zip strips and set aside. The zip strip is the ½" accent paper along the top of each sheet of patterned paper.
• Check the cut orientation below each cutting guide image. This will show you how to cut the paper, keeping the patterns on your project pieces facing the right direction.
• Light grey pieces on your cutting guide are project pieces. White pieces are leftover paper.
• As you cut the paper, label and sort the pieces as indicated in the cutting guide, creating a stack for each project.
