Project 3	1	2	-	1	1

Getting Started:

- Gather all materials needed.
- Trim all zip strips and set aside. The zip strip is the ½" accent paper along the top of each sheet of patterned paper.
- Check the cut orientation below each cutting guide image. This will show you how to cut the paper, keeping the patterns on your project pieces facing the right direction.
- Light grey pieces on your cutting guide are project pieces. White pieces are leftover paper.
- As you cut the paper, label and sort the pieces as indicated in the cutting guide, creating a stack for each project.

Key:

✂ = first cut | * = use back of paper
cut diagonal = angle in trimmer

Cutting Diagrams:

Tip: Lightly draw a diagonal line with a pencil and ruler, from one corner of the paper to the other. Use this guideline to cut the paper in half using scissors (it will not fit in a standard size paper trimmer).
