Exclusive Stamp + Thin Cuts:

Just a little
HELLO
from me!

**THANK
YOU**

you're so
SPE-SHELL

let's shell-ebrate!

Getting Started:

- Gather all materials needed.
- Trim all zip strips and set aside. The zip strip is the 1/2" accent paper along the top of each sheet of patterned paper.
- Check the cut orientation below each cutting guide image. This will show you how to cut the paper, keeping the patterns on your project pieces facing the right direction.
- Light grey pieces on your cutting guide are project pieces. White pieces, not including labeled project pieces that must be die cut, are leftover paper.
- As you cut the paper, label and sort the pieces as indicated in the cutting guide, creating a stack for each project.
- If there is a fold line present in a cutting diagram, cut the paper first before folding it. In order to die-cut two shapes at once, place the die on top of the folded paper or stack two paper pieces before running the paper through your die-cutting machine. Paper pieces that can be stacked for die-cutting will be labeled, "stack."

Key:

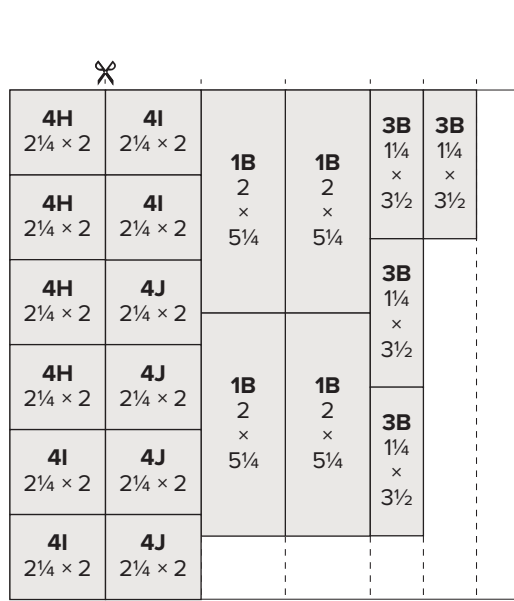

- ✂ = first cut | * = use back of paper | P = Project
 cut diagonal = angle in trimmer
 - - - - = cut line
 •••••• = fold line

 Paper: light Toffee
 Ink: Toffee

 Tips: Use the second-generation stamping technique for the leaves. Then, splatter Toffee ink with a waterbrush.
 Techniques: Ink the leaf stamp in Lagoon and stamp it on a scratch piece of paper. Then, without re-inking, stamp on 1E.

Squeeze the closed Toffee stamp pad in the center to transfer some ink to the inside lid. Open the pad and, using the lid as a tray, add a drop of water to the ink with a waterbrush. Pick up ink from this small puddle with the tip of the brush, and gently tap the barrel of the brush on your index finger, above where you want the splatters to land.
