Getting Started:

- Gather any additional materials needed.
- Trim all zip strips and set aside. The zip strip is the ½” accent paper along the top of each sheet.
- Check the cut orientation below each cutting guide image. This will show you how to cut the paper, keeping the patterns on your project pieces facing the right direction.
- Light grey pieces on your cutting guide are project pieces. White pieces are leftover paper.
- As you cut the paper, sort the pieces as indicated in the cutting guide, creating a stack for each project.
